The 24K Creative Logo

24KCREATIVE

24KCREATIVE

The 24K Creative logo can be used in either the vertical or horizontal forms shown here. Never alter the logo (color, proportion, etc.) without our consent. Do not display these graphics in a way that implies a relationship, affiliation, or endorsement by 24K Creative of your product, service, or business unless granted permission.

A DIVISION OF GOLD GROUP

The 24K Creative Logo logo should be used in its original color form whenever possible, appearing best on a white or light colored solid background. If only one color is available or the background does not lend itself to the 2- color rendition, a one-color version can be used, but only in white or a 24K Creative approved color.

When reproducing the 24K Creative Logo on a colored or patterned background, it must be reversed out in white. The logo should only be used in this form on a solid background, preferably a 24K Creative approved color.
